Subject: Re: GKM Data Delivery/Posting Notifications

Data was posted yesterday and today without the web team following the last step

Please, we need this step to be followed for us to ensure that the public viewer reflects what is posted to the gold king site.

The last time this happened correctly was Friday evening when Danny Hart made the notifications and included the tables that were posted.

Here is the updated Data Delivery Posting Instructions

It is extremely important that we follow these notification procedures. The last step where

the HQ Web Team notifies us that files have been posted is CRITICAL so that we can deliver only data that has not been posted to the goldking site.
